INTRODUCTION

At OFFICE PRODUCTS DEPOT, we recognise how important it is to do our part in making New Zealand communities better, and that being a good corporate citizen and giving back to those that need help is not only the right thing to do, but is also a responsibility we must take seriously.

The OFFICE PRODUCTS DEPOT Group is made up of a network of locally based/operated/owned businesses from Whangarei in the North, to Invercargill in the South. We have 29 locations nationally and have a two-pronged approach to being socially responsible.

Our Corporate Social Responsibility program consists of:

1. A group wide program managed by our National Support Centre
2. Locally based programs managed by our network of OPD Dealerships

We also work closely with our network of supply partners to jointly support community activity, and in some cases, also work with our valued customers in their community-based programs.
